

PUTTING
INNOVATION
TO THE TEST

 **TestEquity**

Our brands: Techni-Tool | Jensen Tools

Industry's largest authorized distributor of test and measurement solutions and production supplies.

MANY INDUSTRIES

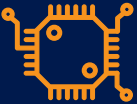

AEROSPACE

COMMUNICATIONS

MEDICAL

SEMICONDUCTOR

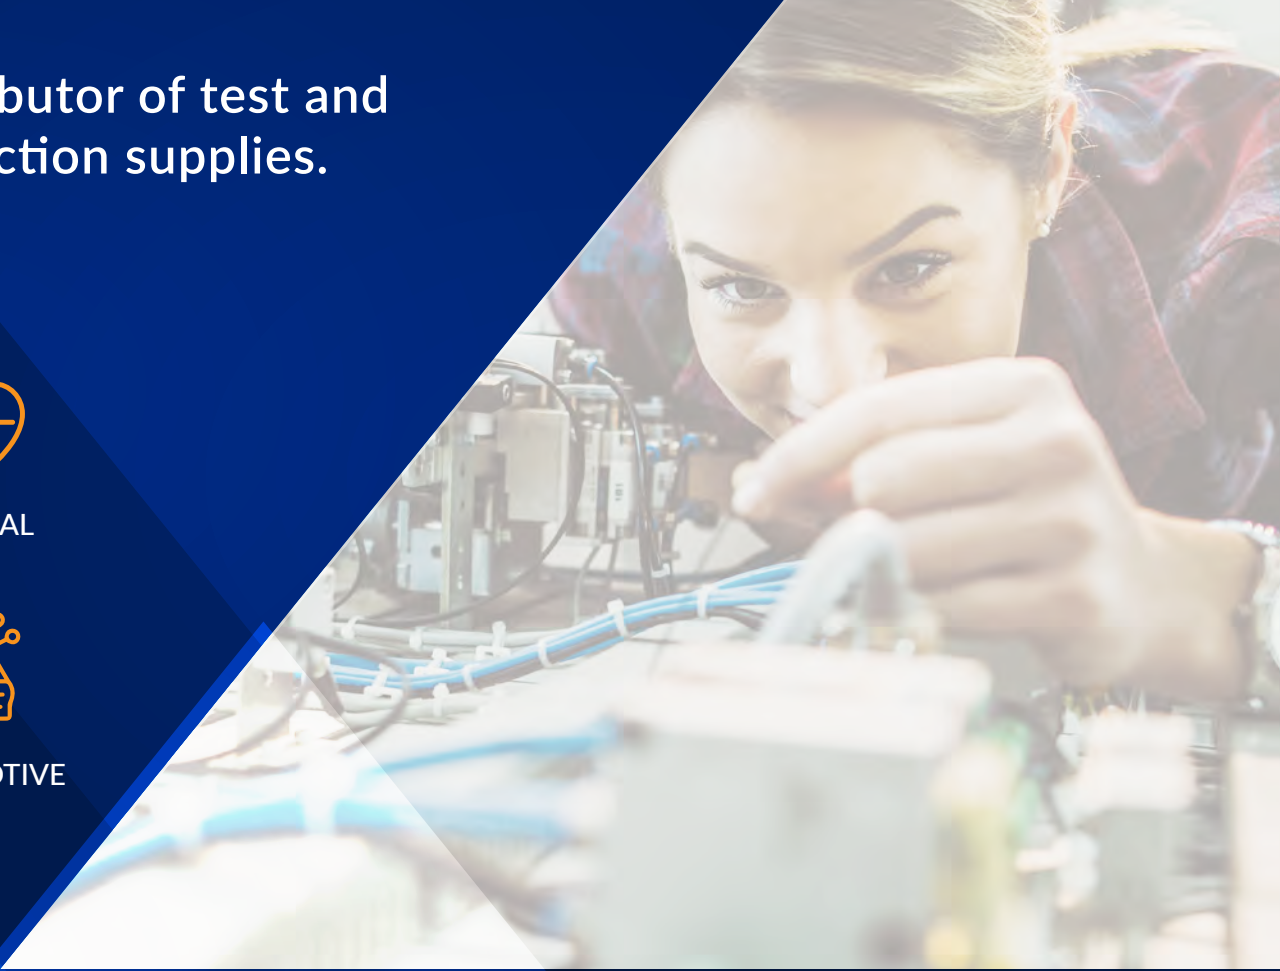

EDUCATION

AUTOMOTIVE

MANUFACTURING

MANY CUSTOMERS

We serve a diverse set of customers focused on designing, manufacturing, and repairing electronics

MANY SOLUTIONS

- T&M Equipment
- Test Chambers
- Used & Rental Equipment
- Calibration Services
- Production Supplies
- Toolkits
- Custom Tool Kitting
- VMI
- ESD Audits
- Punchouts
- EDU Programs
- GSA Programs

These principles guide our work as individuals and drive our shared future together.
We're here to help you put innovation to the test.

We believe test and measurement is the line between speculation and innovation.

We believe electronics production is the backbone of innovation.

We believe in masterfully engineered environmental test chambers.

We believe production supplies should work as hard as you do.

We believe everyone should take pride in their tools.

We believe soldering is the foundation of tomorrow's technology.

We believe better inventory management yields stronger results.

We believe electrostatic discharge is a problem best solved together.

We believe used and rented equipment should be good as new.

We believe streamlined procurement solves supply chain turbulence.

We believe tomorrow starts in today's classrooms and teaching labs.

• PUTTING INNOVATION TO THE TEST •

WE BELIEVE

Results speak for themselves.

We believe putting innovation to the test—and measuring our results—is the key to continuous improvement. We measure our growth in terms of our ability to deliver the resources you need to go from design and testing to production and operation. Simply put: We'll help you get to market faster.

WE BELIEVE In engineering brands.

Our legacy of growth, including our mergers and acquisitions as well as brands we've launched, reflect our commitment to providing the most testing and electronics production solutions. Our role as a distributor is to help you put innovation to the test.

Humble beginnings

The companies that would become today's TestEquity began with big ideas refined in small workshops and garages, carefully refined by passionate engineers.

Built by engineers

TestEquity itself started with flexible ownership, lease, and used options for test chambers. Our engineers and technicians inevitably developed their own ideas, and TestEquity Chambers was launched.

Testing to production

Adding EWD Solutions and Techni-Tool to our family made us the leading provider of electronic production supplies, getting our customers' innovations from test lab to the market faster.

Tools for innovation

Adding Jensen Tools to our family allowed us to serve our customers' maintenance, repair, and operational needs with powerful single-source tool-kitting solutions.

Global presence

With recent expansions in Latin America and Europe, we are a truly global distributor. Today, we serve more than 140 countries around the world.

WE BELIEVE

The strength of a distributor lies in its brand partners.

We are an authorized distributor for 640+ suppliers and we partner with thousands of leading manufacturers. We constantly add industry leading suppliers to meet our customers needs.

WE BELIEVE

Innovation has **few** limits and **fewer** borders.

Innovation. Innovación. Fortschritt. Géxīn. Kakushin. Hyeogsin. инновации. תּוּשָׁנָה. 01001001
01101110 01101110 01101111 01110110 01100001 01110100 01101111 01101001
01101110. Whatever you call it in your part of the world, we deliver test and measurement
solutions, electronic production supplies, and technical expertise.

Wherever you are, we're ready to help you put innovation to the test.

140+ countries | Four continents | Global distribution

WE BELIEVE
Test and measurement is the line
between **speculation** and **innovation**.

We are more interested in testing and results than concepts and renderings.

Same day shipping | Largest in stock inventory | Technical expertise

Innovation starts with an idea. It can be a random inspiration in the shower that leads to doodles and calculations on the back of an envelope. Often it builds momentum through chats with peers. Sketches become CAD mockups and blueprints. A prototype takes form.

But when does an idea become an innovation? When the test and measurement team proves its performance.

We proudly support the aerospace, defense, automotive, electronics, education, and medical industries, just to name a few, as the most comprehensive provider of test solutions in the U.S.

• THE MOST TESTING SOLUTIONS •

COMPONENT MEASUREMENT

- LCR Impedance Meters
- Battery Testers
- Semiconductor Analyzers

METER & DATA ACQUISITION

- Bench Digital Multimeter
- Handheld Digital Multimeters
- Clamp-on Meters
- Megohmmeter
- Data Acquisition Systems

NETWORK & SPECTRUM ANALYZERS

- Network Analyzers
- Spectrum Analyzers
- Handheld Cable & Antenna Analyzers
- Handheld Network Analyzers
- Handheld Spectrum Analyzers

OSCILLOSCOPES & SIGNAL GENERATORS

- Benchtop Oscilloscopes
- Handheld Oscilloscopes
- Oscilloscope Probes & Accessories
- Arbitrary Function Generators
- Pulse Generators

OTHER INSTRUMENTS

- Hipot Electrical Safety Testers
- Thermal Imagers
- Process Controllers
- Audio Analyzers
- Calibrators

RF & MICROWAVE

- RF Signal Generators
- RF Power Meters & Sensors
- RF Amplifiers
- RF Test Accessories
- Frequency Counters

POWER SUPPLIES & AC SOURCES

- Single & Multiple Output DC Power Supplies
- Modular DC Power Supplies
- Source Measure Units (SMUs)
- DC Electronic Loads
- AC Sources

More than 50 years of experience

TestEquity is the largest test and measurement distributor in the United States.

25% of T&M sales

TestEquity represents a quarter of all distribution sales for test and measurement.

1000's of partner brands

Getting you the best testing solutions means partnering with the best in the industry.

WE BELIEVE
Electronics production is the
backbone of innovation.

Unplanned downtime is a problem that can be solved. We strive to be that solution.

Same day shipping | Largest solder supply | Technical expertise

We are the industry's largest electronics production distributor.

We have the widest range of products and services.

We serve the smallest startups and the world's largest companies.

We have everything you need to run your electronics production.

We fully expect you to test each of these claims.

Challenge accepted.

• EVERYTHING FOR ELECTRONICS PRODUCTION •

APPAREL

- Bouffant caps
- Finger cots
- Gloves
- Shoe covers
- Smocks, coats & jackets

BENCHES, WORKSTATIONS & SEATING

- Benches & accessories

- Packaging materials & sealers
- Personal static protection & grounding
- Static testers & monitors
- Facility static protection

STORAGE & HANDLING

- Carts, hand trucks & mobile workstations
- Shelving, racks & storage cabinets
- Shipping boxes & cases
- Totes, bins & organizers

WE BELIEVE In masterfully engineered and precisely accurate environmental test chambers.

The real world doesn't fit in a lab, but our test chambers can create the environmental conditions you need.

Technical expertise | 3-year warranty | Made in the USA

Building world-class environmental test chambers for 20+ years. Designed by our in-house industry leading team of engineers in conjunction with industry standards and performance. Rigorous testing and troubleshooting guarantee the highest level of accuracy and performance backed by our 3-year warranty. Our comprehensive range of humidity and temperature test chambers are designed for any customer demand.

Precisely accurate:

Each chamber is built identically with standardized piping and wiring for repeatable precisely accurate performance. Minimum use of soldered fittings to reduce the possibility of refrigerant leaks.

• BUILT BY ENGINEERS FOR ENGINEERS •

TECHNI-PRO

Techni-PRO is a private-label brand of TestEquity

WE BELIEVE Production supplies should work as hard as you do.

There's always an extra mile. We say it's worth going.

Wider selection | Higher quality | Stronger value

We've engineered a new private-label brand for world-class production supplies. You probably already know Techni-PRO products as Techni-Tool, Tec-Cut, Techni-Stat, Tec-Tuff, and other brands. Our goal was the same as it has always been: To give you more. More equipment. More supplies. More value.

Wide range of products

Apparel: gloves & finger cots, face masks. **Chemicals, cleaners & wipes:** anti-static cleaners & lotion, bottles & dispensers, brushes, cleaners & degreasers, swabs & sticks. **Hand tools:** awls, scribes & probes, brushes, cutters, cutting tools & blades, pliers, power tools & bits, screwdrivers & nutdrivers, tweezers, wrenches. **Lighting & inspection:** magnifiers, microscopes. **Material handling & storage:** wire shelving, racks & storage cabinets, utility carts & handtrucks, tool & parts cabinets. **Soldering & desoldering:** solder aid tools, masking products, solder tapes. **Facility static protection & control:** testers & monitors, grounding cords, static shielding bags, table & floor mats, anti-static tape, packaging materials & sealers. **Personal static protection & control:** foot grounders, heel grounders, wrist straps

WE BELIEVE Everyone should take pride in their tools.

Great craftsman have great tools. We believe providing the best toolkits makes us all better craftsmen.

Fast shipping | Field tested quality | Technical expertise

We proudly serve technicians, installers, engineers, and mechanics through Jensen tool kits. With more than 60 years of experience, we develop industry-specific tool kits for an incredible variety of roles and applications. Each tool is meticulously selected and accurately routed for best fit, form, and function. Each case is chosen for the needs of the experts who carry it.

Types of tool kits

- General electronics
- Installation & service
- Medical
- Industrial
- Telecom
- Networking & PC support
- Electromechanical
- Tool control
- Electrical & insulated
- Government & military

• TOOL KITS YOU'RE PROUD TO OWN •

Custom kitting solutions

Whether Aviation, HVAC, PC Support, Bio Medical, or Military, there's no such thing as one-size-fits all. We work with industry partners to create custom-tailored Jensen solutions with the tool configuration, case style, pallet option, cabinet, or drawer system for your requirements.

Tool control solutions

Jensen's Tool Control Solutions are designed to eliminate FOD, reduce theft, offer protection, and maintain professional work areas.

• THE MOST SOLDERING SOLUTIONS •

3,000+ products in stock

We maintain the industries largest supply of soldering solutions, in stock and ready to ship.

75+ categories of electronics solder products

Our website's filtering tools make it easy to find exactly what you need for your application.

60+ soldering brands

We have the brands you know and the quality you trust.

WE BELIEVE Soldering is the foundation of tomorrow's **technology**.

Every circuit, signal, and line of code owes its existence to solder.
We always have solder ready to ship.

Same day shipping | Best value | In stock

Soldering is like having a magic wand that makes electronics work. It's the first piece of electrical alchemy we learn. Those who take the time to truly master it become the wizards who keep the modern world spinning. You've honed the skills. We've got the tools.

We have solder stations for any application with matching tips in almost any shape you can imagine—plus gear to keep your fumes under control. Our new site's filtering tools make it easy to find solder wire, paste, and bars in the specifications you need.

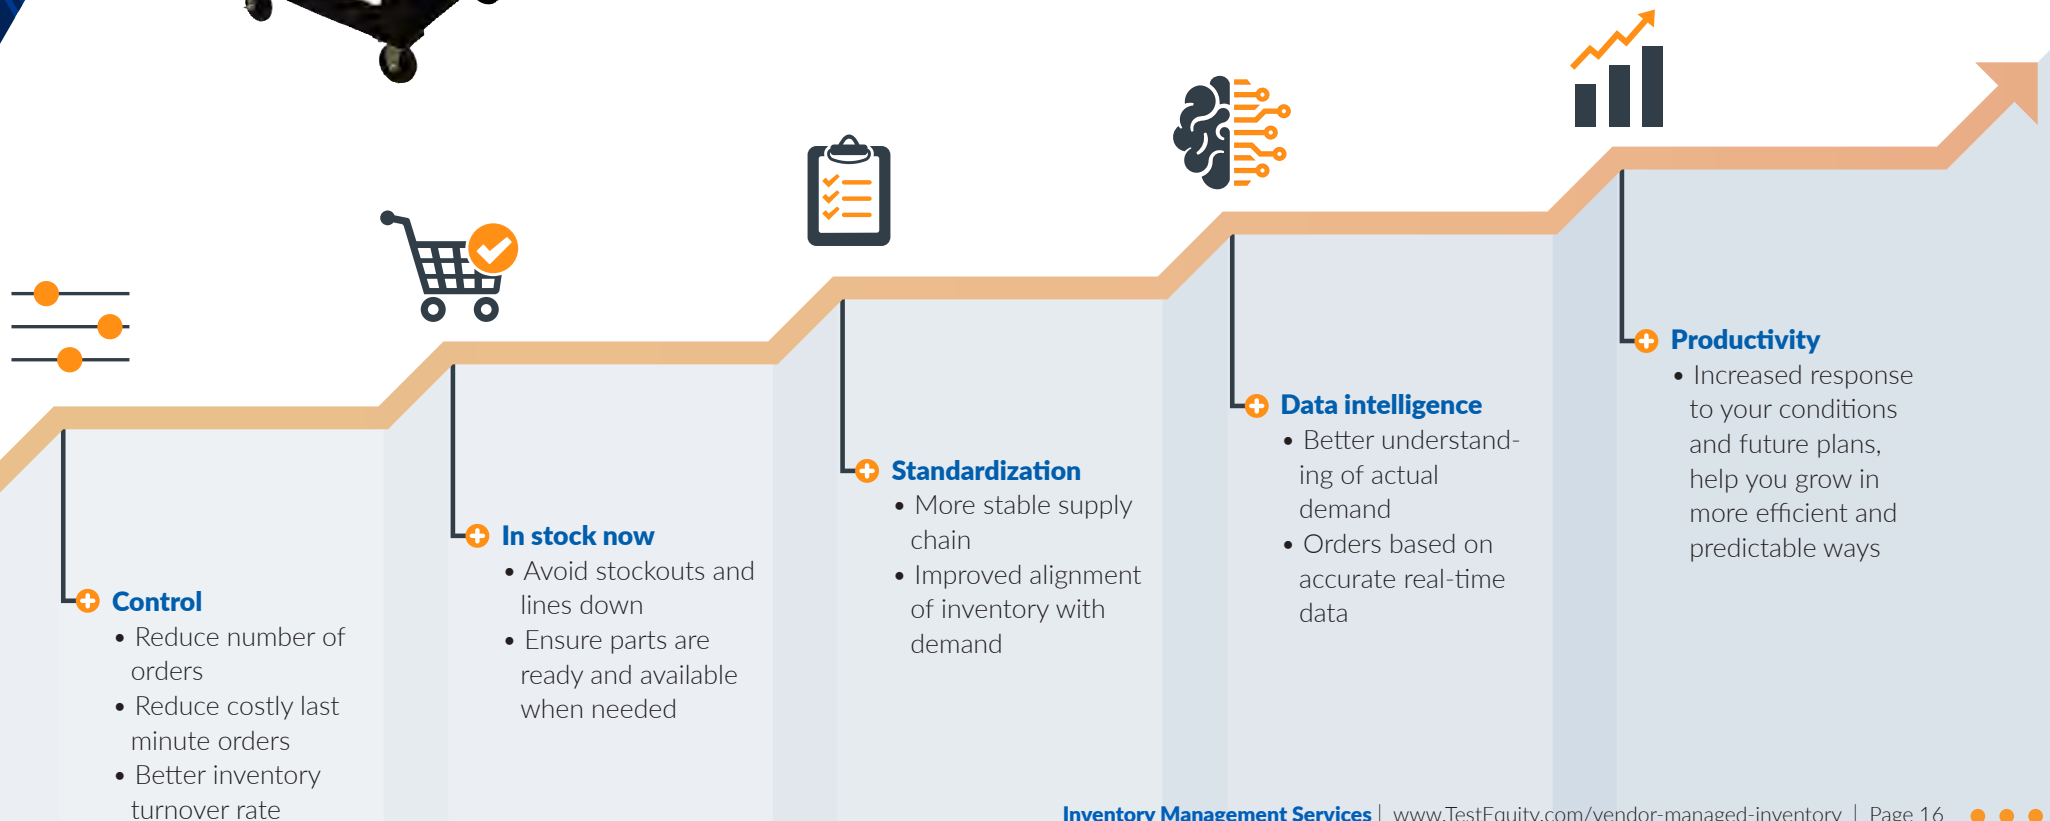

WE BELIEVE Better inventory management yields stronger results.

Custom-tailored inventory management solutions.

Real-time data | Local teams | Technical experts

Our vendor-managed inventory (VMI) solutions put you in control. Get better inventory turnover by reducing the number of orders—especially those costly last-minute orders—without running out of stock. Avoid unplanned downtime with real-time data intelligence supported by our in-house technical experts.

No stock-outs. No lines down. No hassle.

WE BELIEVE

Electrostatic discharge is a **problem** best solved **together**.

Successful ESD prevention occurs at the human-machine interface.
Our FREE consultations address both the machine and the human element.

Consultation | Equipment | Education

Shortening electrostatic discharge to "ESD" makes it easy to think of static as trivial and forget what it is: A Menace.

We'll help you inspect your facility, assess your needs, and recommend any appropriate ESD control materials, procedures, and training programs. For free.

Your Free Audit Includes:

- Details on areas of pass or fail
- Recommendations to correct failed areas
- Suggested improvements in problem areas
- List of products needed to speed improvement

ANSI/ESD S20.20 Survey & Assessments:

- ESD Survey: Review current program & verify if compliant with ANSI/ESD S20.20
- SCS EOS/ESD Assessment: Measure for any static events
- SCS Packaging Assessment: Test and verify current ESD packaging is acceptable for intended use

WE BELIEVE
Used and rented equipment should be
good as new.

True innovation cannot be held back by the costs of owning, repairing, and calibrating test and measurement equipment.

Quality equipment | Huge selection | Financing available

We offer certified used equipment, rentals, and more—because innovation should not be limited by ownership costs.

New ends on Day 2. Performance endures for years

Our certified used equipment is calibrated in our accredited labs and backed by a comprehensive warranty.

Rent from us and save your CapEx dollars. Rent the equipment you need, when you need it, for as long as you need it.

We are an Authorized Rental Company for Keysight, Tektronix, Rohde & Schwarz, and many others—including our own TestEquity environmental chambers.

Need a more one-off budget solution? Our capital partners have equipment lease and finance specialists standing by.

WE BELIEVE TestEquity punchouts solve supply chain turbulence.

Let us be your preferred supplier.

Real-Time Inventory | Best Value | In Stock

Ensure you have the most solutions to design and build electronics. Our goal is to make sure you have the right inventory and selection of test equipment, tools, toolkits and supplies to keep your labs operating and production lines running. We understand highly-specialized technology demands highly-personalized service.

As a TestEquity preferred customer, purchasing products is now easier than ever. Get instant access to:

- Your exclusive pricing
- Real-time inventory availability
- Manufacturer lead times
- More than 130k products
- Order and invoice automation
- Live chat support

Connection:
Our punchout system
can connect to any
procurement portal.

WE BELIEVE Tomorrow starts in today's classrooms and **teaching labs**

The best investment in the future is supporting the STEM students of the present.

Technical expertise | Education discounts | Lab assessments, demos & training

The most innovative sectors of industry need their new hires to be able to apply theory and practice on day one. For STEM students, real-world experience begins with hands-on training. When educators are forced to compromise between quality and cost when outfitting equipment, we compromise the pace of innovation.

This is more than launching careers. This is building a better future.

Our team offers:

Educational programs, free lab assessments, demos, OEM Lunch N Learns, partnerships with multiple student organizations, EDU purchasing contracts, Refresh and Trade-In programs.

WE BELIEVE In public service.

We hold ourselves accountable to the most demanding scrutineers: The people.

**Tracking via Defense Logistics Agency |
Full iRAPT documentation support |
Meets DoD shipment standards**

TestEquity is approved by the United States General Services Administration to provide Scientific Equipment and Services under GSA Schedule GS-07F-284BA.

We take pride in our 45 years of service to U.S. Government customers and prime contractors. We guarantee access to the solutions they need, when they need them, through an extensive in-stock product inventory.

WE BELIEVE Innovation is driven by people.

We believe in the people who design, test, manufacture and maintain each iteration. Innovation is uncharted territory. It demands exploration. We choose the side of the explorers. Innovation is both science and art—those who hone their problem-solving instincts are the highest form of artisan.

You're in **GOOD COMPANY**

We believe solid relationships are the cornerstone of business.
That means our customers as well as our brand partners.
From the smallest production shops to the largest corporations in the world.

We believe that new customers deserve the same respect as long-term partners.
We believe that long-partners deserve the same enthusiasm as new customers.
We believe that the service we provide today drives our shared success tomorrow.

When you call, we roll up our sleeves.
